Live to Eat

PUB 517

Hackettstown, NJ

What a find!!! This is a place where eaters come to eat! When driving to this place we were wondering what could possibly be out here? When we got here and ordered it was very obvious. First, their specials are unbelievable. Price, quantity and quality - all three are amongst the best places we have eaten – period. Each of us had something different off the specials menu and each of us left full and very, very happy. Eatingteam.net recommends PUB 517 as not only a “Damn Good Restaurant” but as one of the best Eateries for the buck we have seen in a long, long time. We will be back...ohhh, We will be back.

This is what I chose to start with it is called the pepperoni role. Sausage, cheese, pepperoni and peppers all wrapped together and cooked up. This was a great start. Next - my clams. None of these little tiny guys you get elsewhere either, good size clams, 2 dozen.

NOW FOR THE MAIN COURSES.

For me – 20 Oz.STEAK (with the house rub), baked potato and corn.

STEAK!!!!
